BESPOKE LEARNING MANAGEMENT SYSTEMS

Practical learning. Lasting capability.

Your content. Your people. Your learning environment.

Connect financial-services expertise, bespoke course design and a branded learning portal. Shoreline Asia develops the content, configures the learning environment and supports delivery, helping your teams build capability at scale.

PROVEN DELIVERY AT A MAJOR BANK

5,000+ staff enrolled and trained

4 tailored cohorts

We bulk-enrolled and trained over 5,000 staff across four cohorts, each with a specifically designed course to embed bancassurance across the bank.

Built around your organisation

Bespoke course design

Adapt our extensive training library or develop new courses around your roles, products, policies and procedures.

Your branded learning portal

Create a tailored portal, or deliver the content through your existing learning management system.

Bulk enrolment & learning pathways

Organise learners by role and cohort, assign relevant courses and manage enrolment and learner administration.

Engaging learning & assessment

Combine video, text, PDFs, quizzes, reflections and assignments with completion certificates and gamification.

Progress & management reporting

Track enrolment, progress, assessment results and completion, with branch, regional and enterprise reporting.

Flexible delivery & ongoing learning

Connect self-paced courses, live sessions and blended delivery; extend the portal with updates and CPD resources.

More than 15 years of classroom and online training. Experience includes a multi-market bancassurance academy and bespoke financial-planning programmes for relationship managers. Optional AI sales coaching adds realistic practice and structured feedback.
